Project title: Online Animal Care

Group - 3

- **Anik Kumar Saha (19-41289-3)**
- **Nafiz Ahmed (19-41283-3)**
- **Raiyan Ahmed (19-41322-3)**
- **Shanzida Ahammad Sharna (19-41312-3)**

Introduction

In this application we will focus on giving aid to the animals in need. Our app will help people to know where they should go or seek for help or any kind of emergency situation. Also we will try to make an easy to use of communication service between other animal lovers and veterinarians.

Targeted people

- ☐ A community of animal loving people
- ☐ Local animal rescue centers
- ☐ Veterinarian
- ☐ Shops

Problems it will deal with

- ☐ Will make it easier to rescue and give treatments to the neglected animals
- ☐ Blog spot for animal loving people
- ☐ Finding specialist doctors for advices and setting an appointment online
- ☐ Easier animal adoption process
- ☐ Will guide the owners how to treat pets through YouTube videos/blogs

Functionalities

- ☐ Request for rescue
- ☐ Being able to post pictures and videos
- ☐ Search for adoption
- ☐ Pay after adoption
- ☐ Being able to buy pet related foods and toys
- ☐ Contact doctors if needed
- ☐ Watch videos of how to treat pets

Thank You
